

RISING STAR PRODUCTS AS

CATALOGUE 2010

RECRUITING LIFELONG & LOYAL FANS

The new Rising Star® product range contains exciting products fans of all ages will love. Our goal is to help your club recruit lifelong and loyal fans by offering the most innovative and attractive products for your fans. We do our utmost, by providing quality products at competitive prices to ensure your fans get value for money when supporting your club.

The Rising Star® products have during the years become more "green"  in line with today's environmental focus. Our unique ceramic-series is manufactured using dolomite ceramic which is recyclable. For the newborns, infants & toddlers we offer fashionable products, manufactured using the finest organic material. We use: organic cotton, bamboo or even "soybean fiber" in most of our exclusive small fan series. We believe only the best is good enough for the new generation of fans. With the right products even small stars shine in the darkness!

The financial crisis is still an influencing factor in our business. The challenge for Rising Star - as a credible and long term supplier - is to continuously develop **NEW** products and make them available in the market as quickly as possible, whilst still maintaining our high quality & safety standards. At Rising Star® we are proud of our 2010 catalogue, which is full of interesting & fast selling products that satisfy our clients' high expectations.

The Rising Star's product range can set the foundations for lifelong support and loyalty towards your club. We have the products, you have the fans!

Sporting greetings,

A stylized, handwritten signature in black ink that reads "Tor Petter". The signature is fluid and cursive, with a large initial 'T'.

Tor Petter Johansen
Managing Director
